

FRANKLIN FERRER

809-802-1429 | Ferrerfranklin17@gmail.com | github.com/XFREANX | Santo Domingo, DR

PROFESSIONAL PROFILE

Junior software developer with a technical degree from ITLA and ongoing engineering studies at UNIBE. Hands-on experience building frontend and backend web applications using React, Node.js, JavaScript and typescript, with real projects documented on GitHub. Bilingual (native Spanish, advanced English – C1). Looking for a role where I can contribute from day one while continuing to grow technically.

EDUCATION

Universidad Iberoamericana (UNIBE)

B.S. in Systems and Computer Engineering | Santo Domingo, DR | 2025 – Present

Instituto Tecnológico de las Américas (ITLA)

Technical Degree in Software Development | Santo Domingo, DR | 2022 – 2025

EXPERIENCE

Technical Support Intern

Cementos Santo Domingo | Santo Domingo, DR | Sep – Nov 2024

- Diagnosed and resolved technical incidents in a live support environment.
- Communicated directly with end users, translating complex technical issues into plain language.
- Managed multiple simultaneous support tickets under pressure, improving response times.
- Strengthened documentation habits and adherence to internal IT processes.

PROJECTS

BarberShop Booking App

- A full-stack platform for real-time management of barbershop appointments and services.
- Stack: React, TypeScript, Node.js, Express, JavaScript.
- Focused on robust code using TypeScript and a responsive user interface.

Movie Trailer Website

- Responsive platform to browse and watch movie trailers, built with a mobile-first approach.
- Stack: C#, HTML, CSS, JavaScript, TMDB public API integration.
- Focused on clean UI and smooth user experience.

TECHNICAL SKILL

Frontend: React, JavaScript, Typescript

Backend: Node.js, Express, Python, C#, .net, SQL

Tools: Git, GitHub, VS Code, AI agents, MCP, Docker

Languages: Spanish (native) · English (advanced – C1)

Soft Skills: Effective communication, teamwork, problem-solving, adaptability
